**Lemak Health Relocates to New Clinic in Birmingham**

*Birmingham Clinic Relocates to New Facility on Cahaba River Road*

**BIRMINGHAM, ALABAMA- January 4, 2017-** Lemak Health has relocated its Birmingham clinic from 720 Montclair Road to a brand-new facility located at 5018 Cahaba River Road, Birmingham, AL 35243. The new facility will open on January 4, 2017, and will provide greater access and convenience to patients.

The new clinic on Cahaba River Road is a brand new 20,000 square foot facility conveniently located next to the intersection of I-459 and Highway 280. The facility houses two digital x-ray units, a state-of-the-art MRI, and C-Arm. Drayer Physical Therapy Institute will also provide on-site physical therapy.

Lemak Health's new facility will allow physicians to provide a greater range of services and meet patient demands in an updated and more comfortable setting. Dr. Lawrence Lemak, Dr. Robert Agee, Dr. Scott Appell and Dr. Kavita Iyengar will continue serving patients at the new location, beginning January 4, 2017.

Lemak Health's Chief Executive Officer, Matthew Lemak, said "We wanted a location near the new Grandview Medical Center, but were very focused on patient convenience. With four separate access points, both from 280 and Interstate 459, we think we achieved this. Our new facility will allow our physicians to further the world-class care we have always provided but in a new and more efficient facility."

Lemak Health Birmingham is located at 5018 Cahaba River Road (adjacent to the new Patchworks Farms Development, which includes a new Publix, LifeTime Fitness, and other great retailers and services). To schedule an appointment with a Lemak Health physician, please call 205.453.7550 or visit [www.LemakHealth.com](http://www.LemakHealth.com).
